

MANUFACTURER'S WARRANTY:

This fluid meets with the requirements of the CSIRO (*Commonwealth Scientific & Industrial Research Organisation*) for a scorable marking fluid made to Formula A and conforms with the Organisation's certificate of approval permitting it to be endorsed with the mark **SI-RO-MARK**.

STORAGE:

Store tightly closed in the original container, in cool dry place out of reach of children.

CAUTION:

Excessive application levels are to be avoided as they may result in discolouration after scouring. The fluid must not be rediluted with solvents as this practice will cause the brand to become non-scorable.

DURABLE

Heiniger Animal Care

DURABLE - SCORABLE - ECONOMICAL

When a grazier brands his sheep he seeks a branding fluid that will remain identifiable for one year and is completely removed from the fleece in ordinary processing
SI-RO-MARK

- ✓ is a lanolin based sheep branding fluid compound
- ✓ is used for livestock identification purposes including ownership, breed type, age, productivity, and most importantly, fleece identification
- ✓ Remains identifiable for up to one year
- ✓ Is completely removed during the normal scouring process
- ✓ Is easy and economical to use
- ✓ Can be applied to wet or dry sheep
- ✓ As non-scorable brands result in lower wool prices and wool wastage the use of **SI-RO-MARK** saves the wool industry many millions of dollars each year

- ✓ **No. 1** World leader in **SI-RO-MARK** branding identification products
- ✓ **No. 1** World leader in BioClip & biological shearing research
- ✓ **No. 1** World leader in Elastrator rings ~100 mio annually
- ✓ **No. 1** Wool Press manufacturer in the world
- ✓ **No. 1** World leader in animal clipping equipment

GENERAL INFORMATION:

- ✓ **SI-RO-MARK** is fully scourable, easy & economical to use
- ✓ For best results, brand immediately after the sheep is shorn
- ✓ Dip the face of the brand in the fluid and press firmly against the sheep with an on-off action. Release sheep immediately after branding to avoid smudging
- ✓ Shake well before use
- ✓ An average sized (4mm) brand will mark up to 1000 sheep per 4 Litre can
- ✓ Always use recommended sized branding tools. Avoid using sticks and brushes
- ✓ No need to over-apply **SI-RO-MARK** as this will not increase durability
- ✓ **SI-RO-MARK** is available in five scourable colours: Red, Blue, Green, Purple & Orange

Dedicated 'State of the Art' **SI-RO-MARK** computerised factory
